

SAFE PILL DROP OFF

Saturday, April 21 • 9am-1pm

At the Madison County Landfill on Buyea Road

Madison County residents can dispose of their old and expired medications and pharmaceuticals. Residents can also bring vitamins, veterinary medicines, over the counter medications, and sharps (in red biohazard containers) for disposal.

Flushing old prescription and over the counter drugs down the drain is not a good idea. Medications are ending up in the surface water and are affecting the environment as a result of flushing.

**Buyea Rd. Landfill 3 miles south of the traffic light
on Rt. 5 in Wampsville**

Stop flushing and help the environment
